FINAL REJECTION

The Reissue Oath/Declaration filed 4/07/2008 with this application is still defective because additional defects or errors are corrected in claims 18, 20-26 and 28-39 after the filing of the original reissue oath declaration is not covered. See 37CFR 1.175(a)(1) and MPEP 1414.01

Applicant needs a supplemental reissue oath/declaration where any “errors” under 35 USC 251 has been corrected and the error was not identified in the original reissue oath/declaration. Since the scope of the claims 18, 20-26 and 28-39 has been changed after the filing of the original declaration, a “supplemental declaration for reissue patent application to correct “errors” statement” would have been required in any case. See MPEP 1414.01.

Claims 1-18, 20-26 and 28-39 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175. The nature of the defects in the declaration is set forth in the discussion above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 2816

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
